

# We're All About Family.

Since 1950, we have been family-owned and operated. This is a heritage we are very proud of. In this day of corporately owned and operated funeral homes, the commitment and caring

that comes with family-ownership is getting harder to find.

Our family is here for the families we serve and this community. This is obvious. A great deal of attention and detail has gone into our services and facilities to ensure that they meet each and every need. Home-like atmosphere, soothing furnishings, caring staff, all part of our promise.

Pre-need, at-need, after care, whatever you are looking for. We honor all preneeds.
